FREQUENTLY ASKED QUESTIONS

Addressing the most common questions from school directors

Q Will this interfere with our existing Moroccan curriculum?

A Not at all. The 6 US credits complement — not replace — the Baccalauréat. Students study online, typically 3–5 hrs/week in evenings or weekends, fully around your school schedule.

Q Do we need to hire staff or build IT infrastructure?

A No. GAA delivers a fully turnkey solution: LMS platform, certified US teachers, curriculum, and ongoing support. Your school simply assigns one liaison coordinator — that's it.

Q What if a student struggles or falls behind?

A GAA provides certified US tutors, a dedicated academic advisor, and a real-time parent dashboard. Every student has an Individual Learning Plan (ILP). No student is left behind. Tutors* are additional fees.

Q Is the US diploma genuinely recognized internationally?

A Yes. GAA is Cognia (AdvancED) accredited, NCAA approved, and recognized by 900+ universities across the US, Canada, UK, EU, and UAE. It opens doors no local diploma alone can.

Q How much time do students need to dedicate each week?

A Just 3–5 hours per week. The program is 100% self-paced and online. Live support sessions run every 3 weeks. Students study on their own schedule — no classroom conflicts.

Q What does it cost our school to become a partner?

A Zero setup cost for your school. Tuition (\$1,850–\$2,400/yr) is paid by families. GAA provides co-branded marketing materials, training, and ongoing support at no charge to premier partner schools.
